Showcasing our new facilities

It's been years in the making but we have finally been able to open the doors and show everyone the brand new Sea Lake Early Learning Centre.

On February 1 we hosted an open house for the community to come a walk through the new facility before we commence running five days per week of early years programs.

Monday through to Wednesdays the site will host funded 3 and 4-year-old kindergarten program and child care options.

The site can host up to 39 children. Staff-to-child ratios will be a factor as to how many children are able to be onsite on each day.

If you are interested in a career in Early Years education and care give us a call to discuss our onsite trainee options!

Pictured above: We love the new look at Sea Lake Early Years centre.

Occupational Therapist (New Grad)

Are you a new graduate looking for a change of scenery?

We currently have an exciting opportunity for a recently graduated Occupational Therapist to join our dynamic and enthusiastic Allied Health team at MTHCS.

Check out career opportunities on our website.

For more information on what the job entails, please refer to our website <https://www.mthcs.com.au/careers/current-vacancies>

Mosquito virus update

Murray Valley encephalitis (MVE) virus and West Nile/Kunjin virus have been detected in mosquitoes trapped at multiple locations across northern Victoria. A high number of detections have been reported from the Mildura area.

Please continue to cover up and use repellent to protect yourself from bites.

Care needed in cars

Hot cars kill!

Never leave kids, adults or pets in cars. The temperature inside a parked car can double within 10 minutes.

Free RATs available in Buloke

COVID-19 remains a significant challenge for our community as a whole, and particularly for services such as ours who care for vulnerable people.

As part of a Victorian Government scheme, free COVID-19 testing kits are being made available through the Buloke Shire.

Everyone can collect up to two packs of five RATs per person, and two packs per household member.

You can collect RATs as many times as you need. If you run out of RATs, you can collect more to make sure you are prepared.

If you want a PCR test, visit a GP respiratory clinic or see a GP about a referral to a pathology collection centre. You do not need a Medicare card. Visit the Shire's website or call (03) 5478 0100 for more information.

**Free RATs
from your council**
