Providing purposeful care

At Mallee Track Health and Community Services, we are great believers in providing person-centred aged care. To help us do that our programs and activities are guided by the Montessori In Aged Care principles.

Over the past year, staff have been busy completing training and preparing our residential facilities. We're now at the next exciting stage of recruiting a Montessori Manager.

The role will involve leading the next stage of implementing our vision for improved aged care services. It means a prepared environment, created to support the needs of each person's individual needs. In that special environment, each person can be as independent and mobile as possible, and be encouraged to contribute to their community through purposeful and meaningful activities.

Geared up for another busy year

Did you know our Rural Outreach Workers recorded 246 occasions of service in the last financial year? Podiatry (Foot Clinics) delivered 1152 occasions of service, while the Speech Therapy program ran 436 sessions for children under 12.

Our 2021-22 Report of Operations is now on the website. Read more about the services and programs delivered by our hard-working teams at [www.mthcs.com.au/About MTHCS/Reports and Publications](http://www.mthcs.com.au/About%20MTHCS/Reports%20and%20Publications).

Garden is our happy place

Pattinson House residents love their gardening and especially happy volunteer, Robyn. The last few months have been busier than usual as the gardening pods are installed. Residents are looking forward to being able to enjoy the spoils of their work - fresh from the garden to their plates!

Carers need care looking after too

Carer Support Groups Carers Support Groups meet regularly across the catchment at Murrayville, Sea Lake and Ouyen to provide support and information to family/friend Carers. Interested people should contact MTHCS on (03) 5092 1111 to receive a current plan of meetings.

Nick continues to impress

Apprentice Chef Nick Coe, at Ouyen, had plenty of attention last week when he returned from his regular TAFE training. There were plenty of volunteers to try his eclairs, muffins and apple strudel.
